## SUREKA GROUP OF COMPANIES - JOURNEY

Established way back in the year 1937, our activities began as marketeers of Industrial products, with an emphasis on Textile Machinery and consumables.

Right from 1951 onwards we have been holding direct franchises from Companies in Germany, Switzerland, and U.K. for marketing their products. While the Textile business continues to expand multi-directionally, we have integrated ourselves into a group of Corporate engaged in diverse activities.

Diversification of our operations in the Contracting field includes infrastructure, Civil Construction, Erection of Pre-engineered Buildings, False Ceilings, Fireproofing and Hot and cold Insulation, and Specilized industrial flooring using Laser Screed machines.

Personnel from different areas of expertise synergize to make available to our customers services of varied nature. Over the years we have had the opportunity to work for prestigious National level and Multi-National Companies spread throughout the Country.

The Construction activity we and our associates are engaged in covers railway earthwork and bridges, Industrial buildings, houses, schools, health centers, Indoor Stadia and even a Cricket Stadium. The following pages include illustrations of some of the jobs executed by us. Also forming part of this presentation are lists of some of our prestigious clients and the projects we are currently executing.

For us, there could not have been greater satisfaction than to have found faith in our different clients for the precision of working and timely execution. The jobs repeatedly entrusted to us by many of the clients are testimony to their confidence.
